

Hi. I'm so excited to introduce you to Essence - the world's first wearable aromatherapy nasal diffuser.

Essence offers a simple, stylish wellness solution for everyday stress, focus, mood, and rest.

Essence is a natural fit for spas. It enhances your wellness offerings, creates a memorable client experience, and it's a great way to increase your retail revenue.

The Essence Ring is a lightweight, flexible ring that sits comfortably in the nose, offering 4 to 5 hours of scent release and can be reused up to 30 times.

It's easy to use. Gently place the ring over your septum, breathe deep, and feel the benefits in minutes. When the scent fades, just add 1-2 drops of our essential oil into the sachet or soaking bay to refresh it.

We offer single ring sachets, essential oils in 20 amazing scents, and a soaking bay so you can enjoy continuous aromatherapy.

There's a scent for every moment. From energy and focus to relaxation and rest, our 20 scents and signature blends help support your lifestyle.

When introducing Essence to clients, let them try a ring, share your personal experience, and connect it to their lifestyle. Ask about their goals - stress relief, focus, better sleep - and recommend the perfect scent.

Thank you for being a part of the Essence family. Let's inspire more wellness - one breath at a time.
